Vision

Abalto is in business for this purpose:

Our vision is to be a top ranked Main Automation Contractor for Automation, Control of Instrumented systems including Safety Systems with all major Engineering Procurement Contractors within 5 years.

Guided by relentless focus on our ten principles, we will constantly strive to implement any initiatives required to achieve our vision. In doing this, we will deliver operational excellence in every corner of **Abalto** and meet or exceed our commitments to the many customers we serve. All of our long-term strategies and short-term actions will be moulded by a set of core values embodied in our principles that are shared by each and every employee.

Principles

Service

Our customers will have a wide choice of the most effective and appropriate, cost effective and well engineered solutions from **Abalto** aiming for the most consistently delivered project executions.

Passion

We are determined to succeed. We challenge the Status Quo that resists excellence and change.

Citizenship

We seek profits for a purpose, and will deploy resources to best achieve our mission in the wider community. From a desire to behave in a grateful and responsible way to society and the less fortunate, a percentage of profits will be given to charitable causes.

Partnership

We cannot achieve our mission alone. We actively seek collaboration with those endeavouring to think in new ways. We embrace challenges and change.

Accountability

We aim to set clear targets, be fully accountable, and to operate with ethical codes of conduct.

Participation

We are all involved in our delivery of projects. Everyone has a voice. We give our leaders a mandate to act fast and effectively, but expect them to listen and respect the views of everyone.

Social

We will not tolerate social injustice. We respect all our colleagues, clients and partners, irrespective of race, gender, religion, sexuality, disability, or health status.

Environmental

We strive in our company practice for the highest environmental goals. We actively seek suppliers who share these goals. We encourage our clients similarly. As a team, we aim to delivery projects with minimal impact on our surroundings.

Consider It Solved...Consider It Done!

ABOUT US – VISION & PRINCIPLES

People

Our goal is to build an inspirational team who are themselves inspired by their mission, their work, their conditions, and their personal development.

Profitability

We pursue robust year-on-year growth and significant returns for our investors. Achieving our mission will be impossible without such profitability and we believe that the sum of all our business principles increases our chances of achieving it.
